Freight Companies and Logistics Operators	4
Conclusions	10

Introduction

As part of WEASTflows Action 4 Task 2a, SEStran was tasked to engage with logistics companies that operate in and out of Scotland, the rest of the UK and also in the EU. This short technical report details all of these contacts.

The Creation of a Network of Sustainable Logistics Chains through compiling the details of each company into one document was fundamental in communicating information and new ideas with the freight transport industry. This document was used in seeking information on logistics practices employed by the various logistics companies in the preparation of the Best Practices documents. It will also be used as a platform for all of SEStran's WEASTflows deliverables to relay information such as Sustainable Best Practice and the Guidelines for Sustainable Best Practices as well as all the other European freight projects.

Despite compiling the details of all the logistics companies in and out of Scotland, it should be noted that new companies will enter the industry and therefore this list will sooner or later become outdated. However, increasing awareness of the existing companies and providing their details, will always be beneficial to all involved in the logistics sector.

In the context of this report, the term 'multimodal', refers to a logistics company or operator that offers more than one service.

Freight and Logistics Companies

No.	Company	Address Line 1	City (Postcode / Zip code)	Country	Mode
1	AAI International Scotland Ltd	Unit 2, Wilson Business Park	Queen Elizabeth Avenue, Glasgow G52 4NQ	United Kingdom	Multimodal

100	Yusen Logistics (Europe)	Airdrie Business Centre	1 Chapel Lane, Airdrie ML6 6GX	United Kingdom	Maritime / Air

Conclusions

As part of the WEASTflows project SEStran was asked to engage businesses active in the industry. Having shown the extent and variety of these logistics companies, it is SEStran's hope that it will increase awareness of the companies listed and encourage freight companies to use other modes of transport to move freight. The company list generated will also provide a valuable step in communicating and relaying information about the deliverables of WEASTflows to the freight industry.

It was not SEStran's intention to exclude any company out of this list but to include as many as possible. Due to the diversity of this industry, this list will become outdated sooner or later with new companies starting and other companies disappearing or merging.
