

Performance and Audit Committee Friday 6 June 2025 Item 8. Risk Management Framework

Risk Register

1. INTRODUCTION

1.1 The purpose of this report is to provide the Performance and Audit Committee with its quarterly update on SEStran's strategic risk register.

2. BACKGROUND

- 2.1 The Performance and Audit Committee, at its meeting in November 2021 approved the <u>SEStran Risk Management Framework Policy</u> This policy supports the management of the overall risk process within the organisation, including its governance arrangements.
- 2.3 The latest version of the risk register can be found at **Appendix 1** of this report.

3. MAIN REPORT

- 3.1 In previous updates to the Committee, reports have covered the organisation's Strategic Risk Register in its entirety. However, in its final report on the annual audit for 2023/24, Audit Scotland recommended that the format of future reports is revised to ensure that the report to the Committee focuses on the 3-5 key strategic risks.
- 3.2 As a result, this report focuses on the 3 main current strategic risks, based on the total risk scores shown in the strategic risk register, which is included as an appendix to the report:

R001 1.1 Change to Regional Governance

R002 2.6 Funding Reductions

R008 8.1 Cyber Security

3.3 A Potential Change to Transport Governance

Transport governance defines the roles and responsibilities of Transport Scotland, the seven Regional Transport Partnerships (RTPs), 32 local authorities, and selected partners in shaping Scotland's transport landscape.

Recent discussions and independent reports have consistently advocated for Transport Scotland to delegate more of its workload to organisations better positioned to address regional and local priorities. These entities, with their deeper understanding of specific transport needs, may be better equipped to prioritise and deliver projects effectively within their respective areas.

For the Partnership, this shift presents both challenges and opportunities. The recent transfer of People and Place responsibilities underscores Transport Scotland's support for a regional approach to certain transport functions, reflecting its confidence in RTPs. Building on this momentum,

SEStran is actively engaging with Transport Scotland to explore additional areas where it can contribute meaningfully. However, as new governance arrangements take shape, there is a risk that RTPs' influence could be diluted, potentially limiting their ability to drive regional transport priorities effectively.

Furthermore, Transport Scotland intends to review transport governance in the near future, subject to resource availability. RTPs, along with COSLA and SCOTS, are expected to participate in a working group that will report to the Cabinet Secretary for Transport.

3.4 Funding Reductions

Transport Scotland's annual grant remained unchanged for over a decade before being reduced by 5% in 2024/25, reflecting wider Scottish Government budget cuts. This reduced funding level has continued into 2025/26, with a real risk of further reductions in 2026/27 and beyond, potentially affecting the Partnership's core operational costs.

SEStran maintains ongoing engagement with Transport Scotland to ensure its work is recognised and valued. Efforts focus on demonstrating the broader impact SEStran could achieve with increased funding.

Council requisitions have declined by 10% over the past decade. In response, Transport Scotland has encouraged RTPs to seek increases. No decision has been made on the approach to 2026/27, but it likely that a report will be submitted for consideration by the Board in June 2025.

Project funding has historically accounted for up to 50% of SEStran's total income but is typically announced mid-financial year, excluding it from budget planning. Due to ongoing fiscal pressures, no such funding was allocated in 2024/25, and availability remains uncertain for 2025/26.

European Union funding ceased entirely in 2023/24 following the UK's exit from the EU. However, UK organisations remain eligible to bid for Horizon Europe funding. SEStran is actively collaborating with UK and EU partners to explore these opportunities.

3.5 Cyber Security

Public sector entities are increasingly being targeted by cyber-attacks and data breaches, posing risks to sensitive information and service continuity.

To support its cybersecurity defences, SEStran's Information Technology (IT) service provider oversees all aspects of IT support, including cyber protection. This includes implementing technological defences against attacks and delivering staff training to enhance awareness of social engineering tactics and threats via common communication channels such as email, SMS, phishing, and vishing.

SEStran undergoes an annual **Cyber Essentials Plus** audit, maintaining full accreditation. Additionally, it receives daily threat intelligence updates and weekly vulnerability assessments from the Scottish and National Cyber Security Centres. As part of its IT service contract, SEStran also benefits from monthly in-person consultations with an IT consultant or engineer to ensure ongoing security enhancements.

4. **RECOMMENDATIONS**

- 4.1 The Committee is asked to comment on the contents of the report, and;
- 4.2 To note that a final version of the Risk Register will be referred to the Partnership Board for noting;

TS have now agreed to restart the review of regional governance and a group will be set up, including RTPs, Cosla and TS. The joint RTPs have submitted a refreshed Develop to Deliver report to TS and COSLA in 2024. TS currently are looking for resource to restart the review of regional governance. | A Concordat has been established and is functioning effectively between SEStran and the ESESCRD. This agreement commits both parties to collaborate openly and transparently to support land use planning and economic growth across the region. The benefits of this partnership are already evident, with the regional electric vehicle charging strategy and the RTS Delivery Plan development being two key examples. The Partnership will continue to work with partners and stakeholders at Scottish and UK |

Risk Appetite

| Risk Rating | Net Risk Assessment | Risk Appetite Response |
|----------------|---------------------|---|
| High | 15-25 | Unacceptable level of risk exposure which requires action to be taken urgently. |
| Medium | 7-14 | Acceptable level of risk but one which requires action and active monitoring to ensure risk exposure is reduced |
| Low | 1-6 | Acceptable level of risk based on the operation of normal controls. In some cases, it may be acceptable for no mitigating action to be taken. |

Risk Response

There are four categories of risk response:

Terminate: risk avoidance – where the proposed activity is outwith the current risk appetite level;

Treat: risk reduction – where proactive action is taken to reduce the likelihood or impact of an event occurring or limiting the consequences should it occur

Transfer: risk transfer – where the liability for the consequences is transferred to an external organisation in full or part (e.g. insurance cover)

Tolerate: where certain risks are accepted
