

Risk Register

1. INTRODUCTION

- 1.1 The purpose of this report is to provide the Partnership Board with its quarterly update on SEStran's corporate risk register.
- 1.2 Note that the risk register report was considered by the Performance and Audit Committee on the 11th September 2026.

2. BACKGROUND

- 2.1 The Performance and Audit Committee, at its meeting in November 2021 approved the [SEStran Risk Management Framework Policy](#). This policy supports the management of the overall risk process within the organisation, including its governance arrangements.
- 2.3 The latest version of the risk register can be found at **Appendix 1** of this report.

3. KEY NET RISKS

- 3.1 This report focuses on 4 risks: the 3 top rated risks based on the total risk scores shown in the strategic risk register and 1 for the new risk covering serious organised crime and fraud.
- 3.2 The Partnership continues to operate within a context of external uncertainty, and the highest-rated risks within the current register reflect this position.

Top Risks

3.3 R001 1.1 Transport Governance

- 3.3.1 The principal net risk remains R001 1.1, reflecting continuing uncertainty arising from the Scottish Government's review of transport governance arrangements. Recent Programme for Government commitments to review the future configuration of transport bodies and bring Transport Scotland more closely within central government reinforce the potential for changes to the roles and responsibilities of Regional Transport Partnerships. While the outcome remains uncertain, there is also an opportunity to strengthen regional transport delivery and influence. SEStran continues to engage with Transport Scotland, RTP partners and constituent authorities to monitor developments and ensure the Partnership is well positioned to respond to any emerging proposals. No significant change in risk exposure is currently assessed.

3.4 R002 2.4 Sources of Additional Income

- 3.4.1 Risk R002 2.4 concerns the possibility that additional sources of income may become constrained because of the wider economic climate or changes in operating arrangements. Following mitigation, the risk remains assessed as Medium, with a net score of 12, making it one of the highest financial risks in the register. The risk remains significant because SEStran relies on additional income to support delivery beyond its core resources. The revenue budget reflects the most likely level of external income, while officers continue to explore alternative funding options, submit funding bids and make the case for additional investment.

3.5 R002 2.5 Funding Reductions

- 3.5.1 Risk R002 2.5 relates specifically to potential reductions in core funding from the Scottish Government and council requisitions. The risk remains assessed as Medium, with a net score of 12. A reduction in core funding could affect SEStran's ability to fulfil its statutory duties and deliver the Regional Transport Strategy. Mitigation includes continuing to identify external funding, engaging with the Scottish Government, Transport Scotland and constituent councils, and working with other Regional Transport Partnerships to influence the review of funding allocations. However, the scale of future activity will continue to be determined by the resources available to the Partnership.

New Risk

3.6 R002 2.10 Fraud and Serious Organised Crime

- 3.6.1 A new risk, R002 2.10 Fraud and Serious Organised Crime, has been added following the Internal Audit recommendation that these matters should be formally reflected in SEStran's risk management arrangements. The risk covers potential financial loss, regulatory action, reputational damage and reduced public confidence arising from a failure to prevent, detect or respond effectively to fraud, corruption or serious organised crime. It is assessed as Medium, with a net score of 8. Mitigating actions include maintaining anti-fraud, whistleblowing and financial controls; reviewing compliance with the Economic Crime and Corporate Transparency Act 2023; undertaking risk assessments and supplier checks; providing staff awareness training; and reporting relevant risks or incidents to the Performance and Audit Committee.

3.7 Summary

- 3.7.1 The overall corporate risk profile remains stable, with no significant change in risk exposure currently assessed. R001 1.1 Transport Governance remains the highest residual risk, reflecting uncertainty around the Scottish Government's review of transport governance and the future role of Regional Transport Partnerships. SEStran will continue to engage with Transport Scotland, RTP partners and constituent authorities to monitor developments and respond to emerging proposals.
- 3.7.2 The most significant financial risks continue to relate to R002 2.4 Sources of Additional Income and R002 2.5 Funding Reductions, both

of which remain medium-rated risks. These risks reflect ongoing uncertainty within the wider public sector funding environment and the potential impact on SEStran's ability to deliver strategic priorities and statutory functions.

- 3.7.3 The Corporate Risk Register has also been strengthened through the addition of R002 2.10 Fraud and Serious Organised Crime, following recommendations arising from the Internal Audit review of risk management arrangements. This new risk formally recognises emerging fraud, financial crime and compliance risks, including obligations under the Economic Crime and Corporate Transparency Act 2023.

4. RISK REGISTER REVIEW UPDATE

- 4.1 The Board should note that Officers have begun work on a redesigned risk register template that moves towards a more structured "cause, risk event and consequence" approach. The new template introduces clearer risk descriptions, explicit risk consequences, gross and net risk scoring, risk appetite alignment, SMART mitigation actions, ownership, status tracking, review dates and action monitoring. It also strengthens the distinction between strategic, financial, governance, operational, legal, technology and people-related risks, while providing improved oversight of risk trends and management actions.
- 4.2 The draft register currently contains approximately 40 potential risk statements and risk drivers which officers are reviewing, consolidating and restructuring into a more strategic set of corporate risks. These include risks relating to transport governance reform, funding sustainability, external income, fraud, cyber security, workforce resilience, statutory compliance, contractor and grant management, political change, partnership arrangements and project delivery. The intention is to reduce duplication; improve clarity and ensure the register focuses on the most significant risks to delivery of SEStran's strategic objectives. A revised and updated risk register will be presented to the next Committee meeting on 20 November 2026.

R002 2.0	Financial	Financial: Significant deviation from budgeted spend	2	Unlikely	3	Moderate	6	Low	The Financial Rules do not permit spending (whether revenue or capital) to exceed available budget. Budget and spend is monitored on a monthly basis by SEStran officers, using financial information provided by CEC through the Partnership's Financial Services Service Level Agreement with CEC and supported by qualified accounting staff of CEC. Action is taken by Partnership officers to develop alternative savings measures, including options for development of contingency arrangements, if required and subject to approval by the Partnership. The Partnership's Financial Rules require reporting of financial performances to the Partnership Board on a quarterly basis. Risk Appetite

Risk Rating	Net Risk Assessment	Risk Appetite Response
High	15-25	Unacceptable level of risk exposure which requires action to be taken urgently.
Medium	7-14	Acceptable level of risk but one which requires action and active monitoring to ensure risk exposure is reduced
Low	1-6	Acceptable level of risk based on the operation of normal controls. In some cases, it may be acceptable for no mitigating action to be taken.

Risk Response

There are four categories of risk response:

- Terminate:* risk avoidance – where the proposed activity is outwith the current risk appetite level;
- Treat:* risk reduction – where proactive action is taken to reduce the likelihood or impact of an event occurring or limiting the consequences should it occur
- Transfer:* risk transfer – where the liability for the consequences is transferred to an external organisation in full or part (e.g. insurance cover)
- Tolerate:* where certain risks are accepted
